

Concerned about bullying?

Join us for a special one-hour workshop for parents.

STOP BULLIES

- **I hear a lot about bullying,** but what does it actually mean?
- **What are the signs** that a student is being picked on?
- **If I intervene,** will that make things even worse?
- **What can I do** when my kid is targeted by bullies?

Date, Time, & Location

Louisville-based communicator George Halitzka will draw on his personal experience as a survivor of bullying to give you tools you can use to help your child when he or she is targeted by “mean kids.” George has shared his impactful story of being victimized as a teen with over 10,000 students. He believes that bullying prevention is most effective when families get involved, so he considers it a genuine privilege to share information and resources with parents.
